

Garretson School District Accountability

The School District Accountability Report is part of the Garretson School District School Improvement Plan. This plan includes reports on all aspects and sectors of the school district. The school district report card is also part of the School Improvement Plan. The report card includes information on all desegregated subgroups including: all students, ethnicity, students with disabilities, limited English proficiency, and economically disadvantaged. This report also includes district information on Dakota Step test participation rate, district graduation rate, district attendance, percentage of classes not taught by Highly Qualified Teachers, and AYP status.

The Garretson School District, which includes the Elementary, Middle, and High Schools, sends copies of the individual Dakota Step test reports and Dakota Step proficiency information to parents through the US Mail. The school report card is posted in the school newsletter (Dragon Flier) as well as on the Garretson School District web site.

The Garretson School District School Improvement plan is presented at the September school board meeting. Copies of the Garretson School District School Improvement Plan will be available for distribution through the school's business office and the Elementary Office. Test scores and terminology will be discussed at Title I events.

The accountability report includes all of the information given on the state report card, including all disaggregated information that is applicable to the Garretson School District.
